

Cosmetic Safety Policy

Our company is dedicated to improving the lives of those we serve through innovative and high-quality health and pharmacy services. That is why we are dedicated to staying abreast of new conclusive research related to cosmetic safety, to assessing findings that demonstrate a linkage between certain health and environmental risks and specific chemical ingredients used in beauty and personal care products, and to evaluating how these findings impact the products we sell.

We are committed to:

- Providing our customers with innovative products from around the world that have been hand selected and tested to meet or exceed regulatory standards
- Building relationships with partners who educate us on scientific research and developments related to ingredients of concern in cosmetic products
- Continuously evaluating our CVS Brand and private label products based on new research findings
- Partnering with our cosmetic suppliers to ensure proper protocols are used to ensure cosmetic safety
- Developing action plans to replace ingredients of concern in our branded and private label products when safer alternatives are available and prompting similar action by our suppliers
- Educating consumers on our cosmetic safety standards and on product evaluation tools that will enable them to take an active role in maintaining good health
